## CITY HALL

### **SEASIDE 2034: BUILDING A BRIDGE TO OUR FUTURE:**

In November 2013, the City Council recommended and approved a Visioning Project for the City of Seaside. "Seaside 2034, Building a Bridge to our Future," will be a 13-month project shaped around creating a living vision plan for the City, its departments and residents.

To learn more about the process, check out the original presentation given during a City Council Workshop on November 18, 2013.

If you have questions, comments or would like to be involved in the vision process, please send an email to [visioning@cityofseaside.us](mailto:visioning@cityofseaside.us).

### **NIXLE ALERTS:**

Are you receiving alerts about road closures, accidents and the possibility of emergency situations in the Seaside area?

**If not, you should be and it's easy to subscribe.**

The City of Seaside and Seaside Police Department use Nixle alerts to inform the community when it is necessary to get information out in a timely fashion. Nixle alerts come in the form of an SMS text message, email, or both (depending on your free subscription). See the flyer attached.

## LIBRARY

On Saturday, February 8, 2014, at 1:00 p.m. you can learn what it takes to grow Orchids on the North Coast. Orchid enthusiast K.C. Heckenberg will share his love of the beautiful flowers and offer some expert advice on repotting, growing areas, fertilizer, diseases and airflow. He will also provide information on the Sunset Empire Orchid Society and their goals of conservation, cultivation, and education.

Valentines is upon us and teens will have the opportunity to create one of a kind cards for the sweet occasion. The Hallmark moment will commence on Tuesday, February 11, at 3:30 p.m. No hearts will be broken at this event.

This dog has a halitosis problem but that won't stop him from coming to the "Night of All Knowledge Trivia Tournament" on Wednesday, February 12, at 6:00 p.m. Rover will be wearing his mask, so the Doberman and Pit Bull on his team don't take offense. Smart dog.

## PUBLIC WORKS

BioEngineering Associates, Inc. has completed construction of the Seaside Waste Water Treatment Plant Emergency Shoreline Protection Project. This work consisted of construction of 3 quarried boulder groins, 2 brush barriers, and a rock revetment to protect a total of 200 feet of eroding shoreline, at a cost of \$785 per linear foot. The groins were constructed using 1,500 tons of 4 – 6 ton rock. Each groin measures 40 feet wide along the bank, 10 feet wide at the tip, 12 feet tall, and extends 30 feet out from the bank. Each groin was built on a base layer of 4 – 6 ton rock which extends 5 feet out from the groins and 6 feet below grade. Filter fabric was placed behind the groins and pit run was used to fill the interstitial spaces between the boulders in the base layer. In between the deflectors two brush barriers were constructed using logging slash and held down using 1 ton rocks placed on top of the slash. Along the front of the brush barriers cedar posts were driven into the ground to prevent the slash from washing out. The downstream brush barrier measures 30 feet by 20 feet and the upstream brush barrier measures 40 feet by 10 feet. In between the upstream and middle groins a rock revetment was constructed using approximately 600 tons of 3 – 6 ton rock. The revetment is 12 feet tall, 40 feet wide, and extends out 20 feet. The toe of the revetment was keyed 3 feet below grade.
